

# Do YOU have what it takes to be a Lion?

*Joining ordinary people doing extraordinary things*

**Becoming a member of a world-wide family of people who care about others**

*Bringing joy at special times*

**HAVING FUN!**

Lions Clubs comprise people who value friendship and who join to give something to the societies in which they live.

They do it for no reward other than the self-fulfilment that comes from helping good causes.

They do it using their life skills and Lions are people drawn from every part of society.

**Serving the community together and having a great time doing it**

*Bringing joy to others!*

**Stick a label with the contacts, name and address of your Lions Club HERE**

Lions attract attention wherever they go

Lions work as a friendly team, each Lion giving the time they can spare. And there's always lots going on. Along with service comes socialising and each new Lion is a friend everyone else can't wait to get to know.

Become a Lion and you join the world's largest community service organisation which means that wherever there is a need there will be a Lion on hand to help to meet it.

Fundraising takes many forms. Whatever it is; tipping ducks off their perch, horse shows or Swimarathons, Lions have succeeded in raising thousands for hundreds of good causes.

**Come and join us!**

**Do YOU have what it takes to be a Lion?**

If you want to serve your community, if you enjoy the company of people who share your attitudes to life. And you place personal satisfaction, fellowship and commitment above material reward, then you will have all the qualities to be a Lion.
